### Traditional Overshot Above & Beyond

In this skill building workshop we will introduce first year students to Traditional Overshot Weaving. Students will learn how to read their weaving and weave without a treadling draft. What is “tomp as writ”? You’ll learn in this workshop! After you have attended our first year overshot class you are eligible to attend future and more in-depth overshot workshops.

Option 1 students will use Traditional materials. 10/2 perle cotton warp, 20/2 tabby weft, and 2/18 merino wool pattern weft. Weft materials will be available for purchase at class.

Students will learn to read their cloth, square their weaving and practice consistency with beat. In class they will weave several samples, then once ready, begin a final project. We will also build on the skill needed to decipher vintage drafts, and understanding the most common forms of shorthand used in these old drafts.

Returning students have their choice of draft, option 1 or option 2 at a finer sett and more complicated treadling.
